

AMENDMENTS TO THE CLAIMS

1. (Original) A thermoplastic molding composition, comprising
 - A) at least one rubber-free copolymer in which no hydroxyl group, acid group, amino group, or anhydride group is present, based on at least one vinylaromatic monomer (a1) and at least one copolymer (a2),
 - B) at least one rubber-free polymer in which at least one hydroxyl group, acid group, or amino group is present,
 - C) from 3 to 50% by weight, based on the total weight of components A to E, of at least one rubber,
 - D) at least one terpolymer, obtainable from
 - d1) at least one vinylaromatic monomer,
 - d2) at least one C₁-C₄-alkyl (meth)acrylate or (meth)acrylonitrile, and
 - d3) from 0.4 to 4% by weight, based on the total weight of components d1) to d3), of at least one monomer in which an α,β -unsaturated anhydride is present, and
 - E) at least one compound having at least two isocyanate groups.
2. (Currently amended) A thermoplastic molding composition as claimed in ~~claim 1 or 2~~ claim 1, in which the proportion of component D is from 0.4 to 30% by weight, based on the total weight of components A to E.
3. (Currently amended) A thermoplastic molding composition as claimed in ~~claim 1 or 2~~ claim 1, in which the proportion of component E is from 0.1 to 5% by weight, based on the total weight of components A to E.

4. (Currently amended) A thermoplastic molding composition as claimed in ~~any of claims 1 to 3~~ claim 1, comprising, as component A, at least one copolymer of a vinylaromatic monomer with (meth)acrylonitrile.

5. (Currently amended) A thermoplastic molding composition as claimed in ~~any of claims 1 to 4~~ claim 1, comprising, as component B, at least one polyester or polyamide.

6. cancelled

7. (Currently amended) A molding, a film, or a fiber ~~obtainable using a~~ which comprises the thermoplastic molding composition as claimed in claim 1 ~~any of claims 1 to 5~~.

8. (Original) A process for improving the compatibility of a thermoplastic molding composition, comprising

A) at least one rubber-free copolymer in which no hydroxyl group, acid group, amino group, or anhydride group is present, based on at least one vinylaromatic monomer (a1) and at least one copolymer (a2),

B) at least one rubber-free polymer in which at least one hydroxyl group, acid group, or amino group is present,

C) from 3 to 50% by weight, based on the total weight of components A to E, of at least one rubber, which comprises mixing components A to C in the presence of

D) at least one terpolymer, obtainable from

d1) at least one vinylaromatic monomer,

d2) at least one C₁-C₄-alkyl (meth)acrylate or (meth)acrylonitrile, and

d3) from 0.4 to 4% by weight, based on the total weight of components d1) to d3), of at least one monomer in which an α,β -unsaturated anhydride is present, and

E) at least one compound having at least two isocyanate groups.

9. cancelled

10. (New) A compatibilizer for thermoplastic molding composition encompassing at least one rubber-free polymer in which at least one hydroxyl group, acid group, or amino group is present which comprises a mixture of at least one terpolymer D obtainable from

d1) at least one vinylaromatic monomer,

d2) at least one C₁-C₄-alkyl (meth)acrylate or (meth)acrylonitrile, and

d3) from 0.4 to 4% by weight, based on the total weight of components d1) to d3), of at least one monomer in which an α,β -unsaturated anhydride is present, and

at least one compound E having at least two isocyanate groups.

11. (New) A thermoplastic molding composition as claimed in claim 2, in which the proportion of component E is from 0.1 to 5% by weight, based on the total weight of components A to E.

12. (New) A thermoplastic molding composition as claimed in claim 11, comprising, as component A, at least one copolymer of a vinylaromatic monomer with (meth)acrylonitrile.

13. (New) A thermoplastic molding composition as claimed in claim 12, comprising, as component B, at least one polyester or polyamide.

14. (New) A molding, a film, or a fiber which comprises the thermoplastic molding composition as claimed in claim 13.
